**Re: Planning Permission for the new National Children's Hospital**

Dear Sir,

As I am living in the above area I would like to raise my concerns regarding the new Children's Hospital the overriding one being the diminished privacy to the back of our houses.

1. First we have to deal with the metro and all its inconvenience.
2. We will have four hospitals in our small area namely the Mater Private, Mater Public and The New Children's Hospital and a new Maternity Hospital.
3. Our houses will be completely overshadowed by day by a building with a proposed sixteen floors and the top of this vast building will be an outdoor play area for sick children.
4. The ever increasing lack of car parking space on Leo Street especially on match days.
5. Because of overshadowing by the new hospital our lighting has been decreased and we are forced to turn on our lights at 2 o'clock in the day summer and winter.
6. Access to the hospital resulting in increased noise, traffic helicopter pad etc.

Trusting our concerns will be considered

Yours faithfully,

*Patricia Fennelly*
